HEADLINE: Surgical Acuity Wins Infringement Suit

BODY:

Surgical Acuity, Inc. announced that it won a patent infringement suit against General Scientific Corporation in Federal District Court. The U.S. District Court ruled that General Scientific's Micro-Mini Fiber Optic Light Systems infringed Surgical Acuity's U.S. Patent No. **5,667,291**. The U.S. District Court entered an injunction that permanently enjoins General Scientific from any further infringement of Surgical Acuity's patent. The injunction followed an earlier federal jury verdict that upheld the validity of Surgical Acuity's patent. The jury also found that General Scientific had willfully infringed that patent and awarded Surgical Acuity's lost profits of lost sales of the patented product, and a reasonable royalty on the remaining sales.
